

Achievement based on gantt chart (To be completed by students)

Week	Activities to achieve planned milestones	Supervisor's Signature with date
W2	<u>Problem formulation & Project planning</u> 1. Defined the broad outcomes that are expected to be completed by the time the project ends 2. The specific outputs and activities to achieve the outcomes are defined 3. Prepared a 14-weeks work schedule that defines the activities to be performed for the achievement of the overall outcomes	
W4	<u>Literature review</u> 1. Synthesized other researchers' ideas 2. Compared and contrasted researchers' works 3. Evaluated existing research	
W6	<u>Literature review & Data gathering</u> 1. Identified the gaps in the literature 2. Distinguished the proposed work relative to other researchers' works 3. Identified issues and/or opportunities for collecting data 4. Selected issue(s) and/or opportunity(ies) for collecting data	Supervisor's comments <input type="checkbox"/> Satisfactory <input type="checkbox"/> Unsatisfactory
W8	<u>Literature review & Data gathering</u> 1. Identified ideas, methods and information relevant to the proposed work 2. Planned an approach and methods for data collection 3. Initiated carefully controlled procedures for collecting, storing and accessing data that comply with privacy, human rights and other legislation. Dignity and confidentiality were respected	
W10	<u>Data gathering & Preliminary testing/investigation</u> 1. Analyzed and interpreted the data 2. Identified the barriers, gaps and opportunities that existed 3. Identified a test environment & performance acceptance criteria 4. Partially accomplished the planning and designing process for the preliminary testing	
W12	<u>Preliminary testing/investigation & Report writing</u> 1. Configured the test environment 2. Implemented the test design 3. Execution of the preliminary tests is in progress 4. Started writing the reports	Supervisor's comments <input type="checkbox"/> Satisfactory <input type="checkbox"/> Unsatisfactory
